24/7 Proactive Data Breach Monitoring

Insurance & Underwriting Applications in partnership
with EOS Risk Group & Optimum Speciality Risks

24/7 Proactive Data Breach Alert & Monitoring is an Incident Support Service designed specifically for the Insurance market targeting SME Businesses.

The sustained number of reported cyber attacks and data breaches is increasing the demands on all companies to raise their game when it comes to information security and their own cyber security posture.

Our service has been specifically designed to fit with those growing demands and focusses on companies that need a low cost and effective solution

PROACTIVE DIGITAL TOKEN

Cyber 6 – Proactive Data Breach Monitoring turns your normally dormant insurance policy into something that is working for the customer from day 1.

Our digital token provides a safe and reliable way of identifying a data breach quickly and doesn't require any specialist IT knowledge by simply inserting a small piece of code within any database.

In addition it provides you and the insured with source attribution as well as valuable context around the breach. This value intelligence forms part of their response and helps them take action quickly and without major fuss.

Fast action is essentially in combatting the breach as well as addressing the demands of GDPR that all companies now face.

HOW IT WORKS

Simply embed our digital token and we will continuously monitors the channels and parts of the internet most commonly used by hackers and cyber criminals looking for stolen or misappropriated data belonging to your organisation.

Once detected, our application alerts you or your insured directly by email or direct to your phone.

Driving your security strategy and compliance across :

- Risk Management
- Brand Protection
- Reputational Harm
- Customer Confidence

GDPR COMPLIANCE

Be the first to know! Simply embed our Breach Alert Token into your datasets in order to adopt the appropriate response sooner and mitigate the exposure.

Fast action is essentially in combatting the breach as well as addressing the demands of GDPR that all companies now face.

About Us

EOS Risk is a leading global professional security services company, providing a comprehensive range of risk services and solutions in analysis, strategy, operations, travel and emergency assistance.

We help organisations to identify and understand the risks to their business and build business resilience by mitigating and governing those risks.

Our service offering spans a 24/7 end-to-end range of integrated strategic consultancy, expert analysis, audit, combined with security management and operations for both physical and logical security.
